

FleetPeek Premier

Your Fleet, Our Focus

FleetPeek Premier

Comprehensive
user-friendly fleet
management

Take control of your fleet!

Track, manage, and analyze fleet and field operations with the most comprehensive fleet management software on the market.

Vehicle Tracking

Real-time location tracking with speed, ignition status, driver behavior, engine data, and more.

Asset Tracking

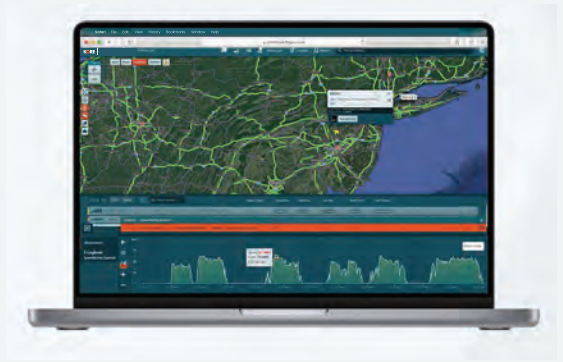

Track and manage equipment, machinery, and tools in real-time. Increase uptime with maintenance management.

Analytics & Reporting

Turn fleet data into actionable intelligence with smart analytics, alerting, and reporting.

Your fleet in a browser.

FleetPeek Premier is the browser-based command center for your entire fleet, where you can monitor and manage work and related vehicle, asset and remote worker activity.

Seamless Hours of Service

Duty logs are displayed as a bar graph with unique colors for each duty status and helpful visual cues.

2-Way Messaging

Send and receive both dynamically created as well as canned messages to drivers and groups of drivers without using text messaging.

Driver Scorecards

Driver Scorecards help you protect your vehicles from unnecessary wear and tear by identifying bad driving behavior.

IFTA Reporting

Simplify IFTA fuel tax reporting by collecting and consolidating your fuel and mileage data.

Fuel Card Integrations

VISTA is natively integrated with some of the largest fuel card providers.

Activity Reports

Put all of your vehicle, asset and driver data to work through VISTA's comprehensive reporting engine to provide deep insights into overall fleet performance.

Live Vehicle Cameras

Watch your drivers in real-time, automatically capture clips of unsafe driving, and download historical video.

Location Manager

Saving locations and geographic areas will enhance your dispatching process and give you invaluable information.

Alerts & Notifications

Change the way you react to unwelcome activity with fleet alerts that are triggered by important events.

Additional Tools

FleetPeek Video

Gain fleet visibility, safety, and accountability with AI camera technology.

Designed to help save lives and improve driver performance.

FleetPeek Coach

Safer Driving, Better Coaching, Easier Management.

Automates coaching by facilitating driver review of events, providing video lesson modules when needed, and only escalating to a supervisor when needed.

FleetPeek Work

Stay connected in the office and in the field.

Provides everything your mobile workforce needs to manage their workload and keep you up to speed on what's happening in the field.

FleetPeek Route

More stops in less time.

Unlock your time and resources with routes that are automatically sorted into hyper-efficient orders. Customize sorting preferences for time, distance, service, and other factors. FleetPeek Premier can also dynamically override pre-set routes to accommodate a dynamic schedule.

FleetPeek Video

FleetPeek Video

Gain fleet visibility, safety, and accountability with AI camera technology.

Livestream Multiple Cameras

Stream up to 8 cameras simultaneously to see what the driver sees.

Monitor Driver Behavior

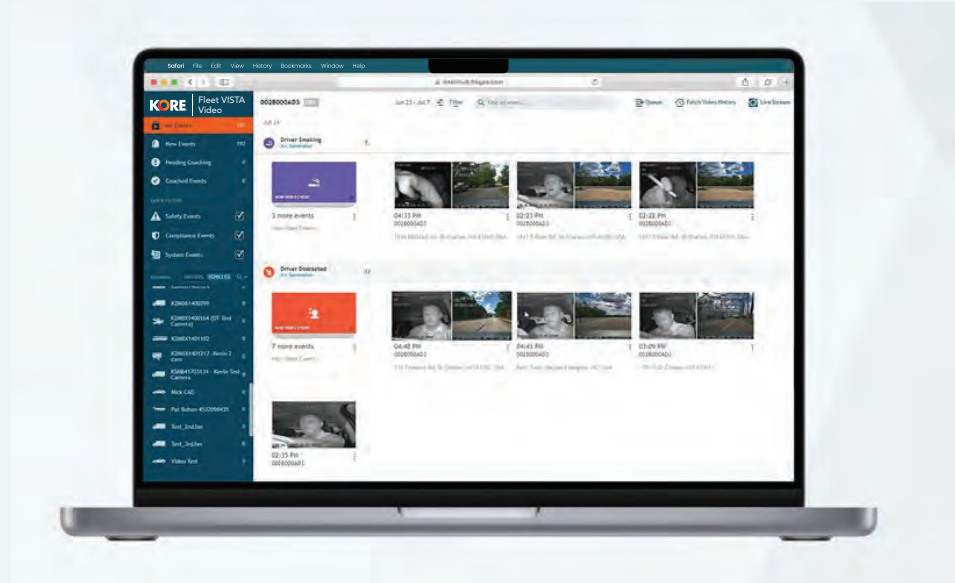

Unsafe driving event clips are automatically uploaded for review by both drivers and fleet managers.

Coaching and Analytics

Automated driver coaching system, detailed analytics, and behavior pattern tracking.

Award-Winning AI Camera Solution

All-In-One fleet vehicle camera system designed to save lives with AI driver assistance, in-cab notifications, and integrated driver behavior coaching.

View Video History Remotely

Stream historical video and download clips right to a computer without having to physically access the vehicle.

Real-time In-Cab Alerts

In-cab audio and visual alerts help to prevent drivers from falling asleep, texting, smoking and more.

Improve Driver Reliability

Video monitoring encourages drivers to decrease risky behavior and improve reliability.

Driver Coaching System

Video automates driver coaching with FleetPeek Coach, an app built to let drivers see their events and self-coach.

Reduce Liability

See for yourself with HD video evidence of each incident: limit liability, protect drivers from false claims and improve security.

Time-lapse

Review footage 15x faster than ever before with time-lapse.

Breadcrumb Trail Snapshots

Snapshot photos are captured every 5 minutes and displayed along the vehicle's route line (breadcrumb trail).

Increase Driver Satisfaction

Easily identify drivers who drive safely and efficiently when considering rewards and promotions.

AI Event Detection

Video AI detects events such as lane departure, unsafe following distance, harsh braking, phone use, and more.

FleetPeek Coach

FleetPeek Coach

Safer Driving,
Better Coaching,
Easier Management.

Coach automates coaching by facilitating driver review of events, providing video lesson modules when needed, and only escalating to a supervisor when needed.

Self-Coaching

Drivers are given the ability to self-coach on minor safety events, freeing up valuable supervisor time.

2-Way Messaging

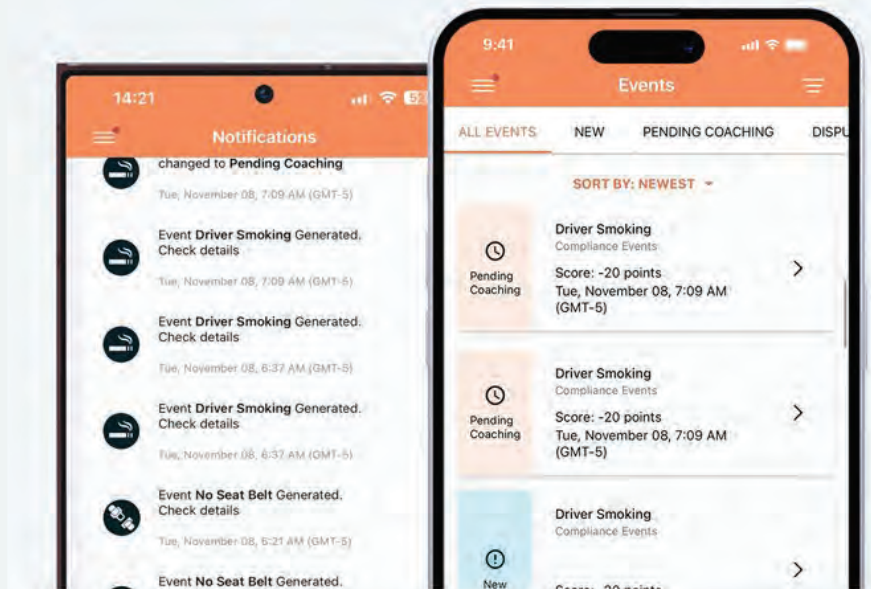

Drivers and coaches can comment on specific events, keeping track of the safety conversation.

Learning Modules

Coach can automatically assign video lessons when needed to correct unsafe behavior.

Empower your drivers

FleetPeek Coach empowers drivers to monitor their on-road behavior, view historical events, and self-coach all in one easy-to-use scorecard system.

Emerging Patterns

Drivers can determine if their driving behavior is getting better or worse by comparing past and recent events.

Driver Score Trend

Reviewing their scorecard trends over time allows drivers to visualize improvements and maintain high performance.

Supervisor Escalation

Coach escalates issues to a manager based upon a threshold of their choosing.

In-App Driver Training

When a driver issue becomes prevalent, drivers are automatically enrolled in a mandatory training program.

In-Cab Alerts

In-cab audiovisual alerts automatically tell the driver to stop or correct unsafe behavior in real-time.

Dispute Events, Add Comments

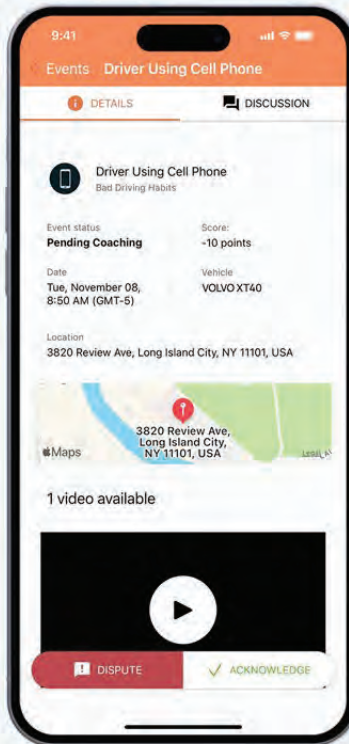

If the behavior was unpreventable, drivers can dispute the event or contact their coach directly.

FleetPeek Work

FleetPeek Work

Stay connected in the office and in the field.

Work provides everything your mobile workforce needs to manage their workload and keep you up to speed on what's happening in the field.

Schedule & Dispatch

Receive dispatched stops, turn-by-turn navigation, and ensure the office always has an accurate job status and ETA.

Workforce Management

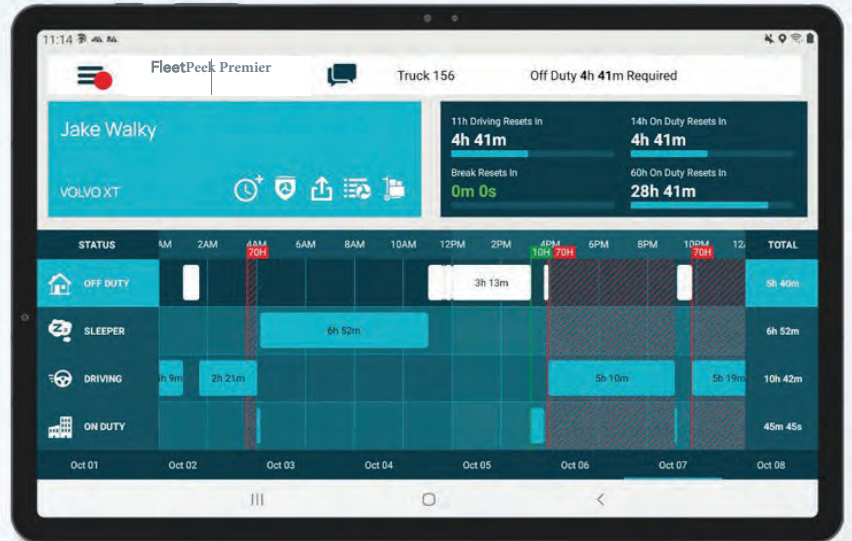

Work provides real-time tracking, digital forms, signature capture, time clocks, and more.

Electronic Logbooks

FMCSA-Approved ELD with flexible rule-sets, DVIRs, and Commercial Navigation.

The App for your mobile workforce

Work enables field service automation on Android and approved devices. Work does real-time GPS tracking, electronic logbooks, digital DVIRs, dispatching, navigation, and more.

Real-time GPS Tracking

Work captures your drivers' vehicle location and activity information, and transmits them in real time.

Driver ID & Behavior

Events (speeding, harsh braking, etc.) are tracked and paired to a driver's unique ID.

Timecard Verification

Identify when and where your employees clock-in and out.

Certified ELD

Work is an FMCSA-approved and compliant electronic logging device (ELD) that makes maintaining logs easier.

Dispatched Stops

Drivers receive scheduled stops along with all relevant details within the app.

2-Way Messaging

Improve your communication process with quick 2-way messaging.

Commercial Navigation

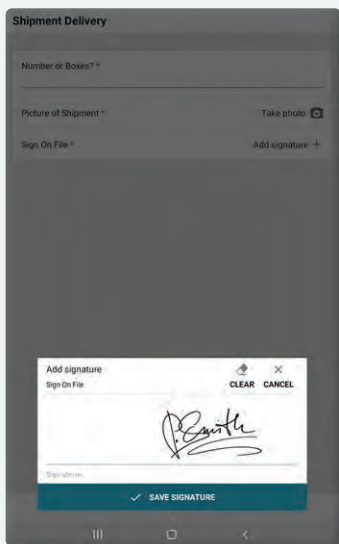

Turn-by-turn commercial navigation keeps your drivers only on roads suitable for their vehicles.

Custom Digital Forms

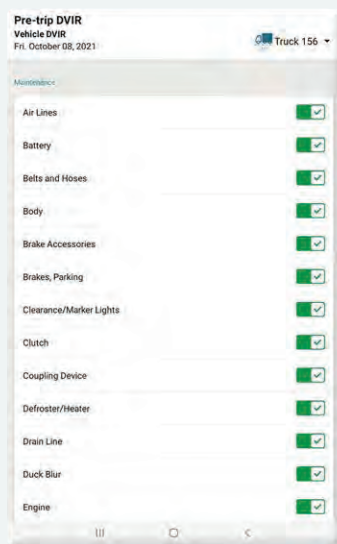

Go paperless by utilizing custom digital forms for proof-of-delivery, driver inspections and more

Signature & Image Capture

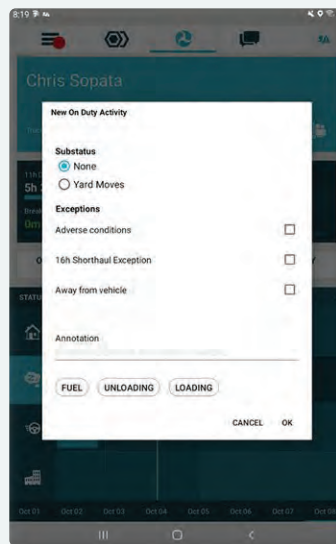

With Work, your drivers can include customer signatures on digital forms.

FleetPeek Route

FleetPeek Route

More stops, more efficient

Unlock your time and resources with routes that are automatically sorted into hyper-efficient orders. Customize sorting preferences for time, distance, service, and other factors. Manually override routes with ease.

Automatically Optimize Routes

Auto-sort for the most efficient order with distance, time, equipment, personnel, and other factors.

Override and Customize

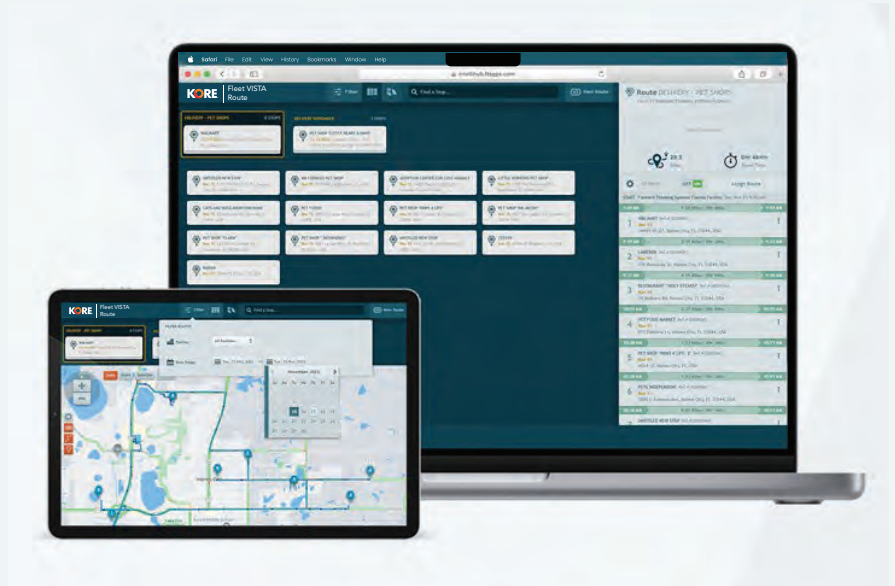

Easily drag-and-drop stops to respond to changing needs and conditions.

Provide Accurate ETAS

Know when drivers will arrive at their next stops and keep the office, customers, and the field in sync at all times.

More stops in less time.

FleetPeek Route helps you build cost-effective routes with little effort by automatically optimizing your stops into the most efficient order, saving time and fuel.

Automatic Optimization

Stops are automatically sorted into the most efficient order, taking into account distance, travel time, and a growing list of other factors.

Easy to Use

Build routes with insight in a clean, simple interface that lets you drag and drop stops around.

Visual Route Building

The interactive map shows you the path that a selected route takes, as well as unassigned stops that aren't yet on any route.

Override & Customize

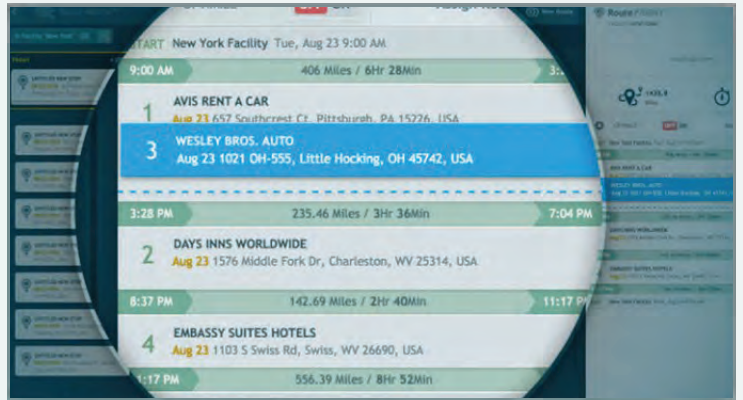

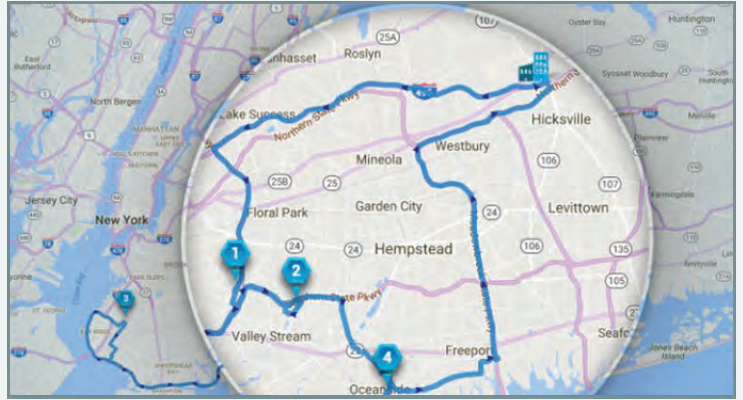

Easily override stop order when special factors like customer preference or truck unloading requirements make it necessary.

Route Totals Summary

As you add stops to the route, the total distance and travel time are automatically recalculated so you'll immediately know how the additional stop affected the route.

Accurate ETAS for Stops

Route estimates arrival times for each stop while you build routes so you'll know approximately when drivers will arrive before they even start driving.

Connectivity

Cost-effective, flexible pricing that saves time in evaluation and procuring cellular connectivity from multiple providers.

IoT Devices

Select the right tracking devices, cameras and accessories for your specific applications.

Location-Based Services

Vehicle, asset and video telematics platform with geofencing, accurate tracking and location capabilities that pinpoint exactly what is happening with any fleet and associated personnel.

Our team of friendly experts can show you how the FleetPeek Premier platform can help you improve operational efficiencies, reduce costs, and enhance the overall performance of your fleet and mobile workers.
