FleetPeeK Plus

FLEETPEEK DRIVER SCORECARD

FleetPeeK's driver scorecard leverages real-time data to evaluate and rank driver performance based on behavior metrics such as speed, acceleration, braking, and idle times.

Fleet managers receive a comprehensive summary, highlighting each driver's scores and comparing them against fleet-wide benchmarks. This system enables managers to identify high-performing drivers and those needing improvement, fostering a culture of accountability and excellence.

THE MOST POWERFUL FEATURE SET IN THE LOCATION-BASED APPLICATIONS INDUSTRY

- Easy to Use App for Download
- 30 Second Real Time Updates
- 60 Days of Historical Data
- Detailed Route Replay
- Integrated AI Dash Cameras
- Intuitive Map Icons
- Custom Reports Emailed Automatically
- Driver Scorecards
- Customizable POI/Geofences
- Workflow Management Tools
- Elite Routing Tools

✓ Real-Time Monitoring

✓ Historical Tracking

✓ Comprehensive Reporting

✓ Alerts and Notifications

CUSTOMIZABLE REPORTS

Management is made easy with a library of graphical reports, such as Stop/Start Summary, Trip Reports and Fleet Productivity Reports.

DATA RICH FLEET DASHBOARD

A snapshot of your fleet's driver behavior. From top speeding violators, total idle times and every recent alert.

ACTION ITEM ALERTS

Monitor the business' bottom line with real time alerts geared to enhance profits.

Idle, speeding, PTO and after hour uses are just a few.
